How to use these books

DISPLAY YOUR POSTER

Simply select the poster you want to display and gently pull it away from the easy-release binding, ready to frame and display on your wall.

CHOOSE A PROJECT TO PAINT

All the techniques and mixes you need to paint your own version of the posters are included in the book.

USING THE TUTORIALS

It's easy! Follow the numbered instructions around the picture. Handy hints and tips are included; just look for the 'In the details' boxes.

As with the posters, the stage-by-stage tutorials are designed to be pulled out easily, so that you can attach them to your easel or have them near at hand on your painting table for easy reference.

Tutorials

USING THE WATERCOLOUR PAPER

You can paint straight onto the easy-release watercolour paper, which is pre-printed with the outline for each of the paintings. For best results we recommend using a transparent watercolour ground to prepare the paper.

Both sides of the textured watercolour paper can be used, so if you feel inspired, you could try the techniques you learn from the tutorials on your own composition.

From world-renowned artist Giovanni Civardi, this highly practical series uses the traditional grid technique to make the drawing process both simple and accessible. Starting from a photograph, Civardi shows you how to create an accurate pencil sketch of the subject by overlaying a grid and transferring the image one square at a time. The sketch is then rendered in easy stages to create a finished drawing. Even the most complex of subjects can be broken down into easy steps using this method.
