DAVID & CHARLES

Welcome

I couldn't think of a better way to showcase the talent of our authors and award-winning team than this catalogue of brilliant books.

Putting together a frontlist programme of this strength is no mean feat. The trust that our authors place in us is an honour that we do not take lightly, and every person who plays a part in bringing their books to market does so with this awesome responsibility at the forefront of our minds. Our aim is simply to delight readers, as well as to educate, empower and inspire them to broaden their creative skills and deepen their connection to the communities of crafters, artists and nature-lovers that our books serve.

As an illustrated publisher, we would be nothing without the beautiful imagery that characterizes our books. *Knitting Peter Rabbit* (9781446309674) is a superlative example of this, in which Beatrix Potter's original watercolour illustrations are combined with magical photography to create a book that will become part of the incredible legacy of this heritage brand. *The Art of Landscape Knitting* (9781446310052) and *Modern Landscape Quilts* (9781446309773) took our plucky photographers from the mountains to the woods to the coast to shoot the stunning projects in the landscapes that inspired them. In *100 Micro Amigurumi* (9781446309704) the challenge was to get in close and show the scale of the tiniest crochet you'll ever see, while *50 Makes for Modern Miniatures* (9781446309940) required the building and lighting of mini sets that look almost real. The artwork in *The Full Moon Yearbook* (9781446310632) takes the book to a higher plane and makes it the ultimate gift for lunaphiles, while our two journals this season, *Simple Acts of Kindness* (9781446310137) and *Overcoming Overwhelm* (9781446310663), prove that journals can be as beautiful as they are useful.

As well as D&C titles, you also find here books from our trusted partners Dover Publications and Exisle Publishing, both of whom share our values and insistence on quality. I hope that you enjoy browsing the books available this season and that your customers will find as much delight in reading them as we had in making them.

GARDENER'S FOLKLORE

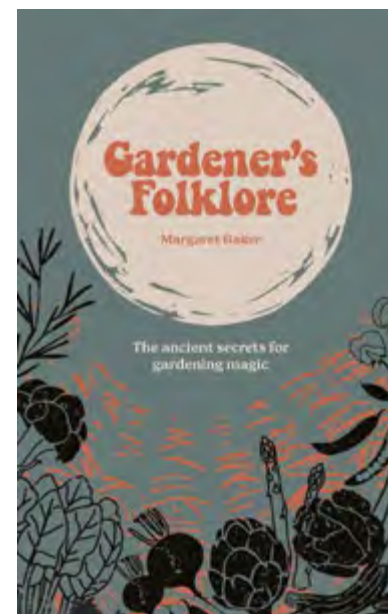

Margaret Baker

THE ANCIENT SECRETS FOR GARDENING MAGIC

This delightfully written book shows just what people have believed – and still believe – will help their plants grow. Filled with gardening lore gleaned from the people who had the greenest of thumbs, *Gardener's Folklore* explores and celebrates our rural origins and offers plenty of gardening tips to use today.

First published in 1976, *Gardener's Folklore* collects the little bits of magic and myth to be found in the gardens of Britain and North America. Compiled from letters sent by gardeners to the author Margaret Baker, it unravels and documents the mysterious sayings and scraps of knowledge that are passed down through generations, while exploring the science of the time that backed up – or in some cases, didn't – the claims that were made.

Capturing the knowledge that traditional gardeners used to have remarkable successes, the ancient secrets of a happy healthy garden are shared for a new generation of green-fingered plant-lovers.

PLANT NAMES EXPLAINED

BOTANICAL TERMS AND THEIR MEANING

Precise naming is essential to be able to identify plants accurately and most gardeners have at least some knowledge of 'botanical Latin'. But a plant's full botanical name does much more than give it a unique label. *Plant Names Explained* is an indispensable guide and makes the subject accessible, enjoyable and fun. It shows not only how plant names work, but also how you can make use of them in entertaining as well as practical ways.

A selective alphabetical listing of botanical names and their explanations is accompanied by features exploring cultivar names, with translations of foreign terms and lists of plants you can link with special occasions and celebrations, or with personal names. Other features highlight the places, people and plant characteristics that lie behind the names: gardens and nurseries, countries and cities, plant hunters and gardeners, colours, characteristics and habitats.

52 WEEKS OF DIARY COMICS

Rachael Smith teaches the basics of writing and drawing comic strips in a diary format that provides a record of the user's year, their growth as an artist and storyteller, and a place for the user to experiment and explore their creativity. For artists and non-artists alike, each week a new prompt will inspire users with suggestions of stories they can tell, or tips they can try. Extremely accessible and undemanding, the diary is designed for only one panel a day to be drawn, making it easy to fit into your life while at the same time allowing the user to establish a new hobby and skill. At the end of the week, the user has a completed comic strip to share with others, use as the basis for a bigger, longer story, or simply a private record of their life and growth as an artist.

CREATE YOUR OWN SPIRITUAL AND MANDALA ART WITH EASY ACRYLIC PAINTING TECHNIQUES

A creative toolbox of techniques and ideas to take painting to a new spiritual dimension. All of nature is permeated by a hidden geometric creative power. A practical guide to synchronicity and being in tune with the universe. Arranged over the course of 24 hours, Montreal-based life coach Anne-Sophie Casper shares what she has learned by letting go of the illusion of control she felt she had over her life – an illusion that was ultimately making her miserable. Written in an engaging tone, the book introduces the idea of synchronicity, exploring the meaning of the word and its genesis, and providing examples of what a synchronicity may be. It then goes on to explore ways that listening to and noticing the messages from the universe can ultimately lead us to greater contentment and connection. Throughout the book are moments for the reader to pause and engage with questionnaires and quizzes to help unpack the lessons and concepts outlined. Rooted firmly in the personal experience of the universe, it is the ultimate practical toolkit and guide for personal self-development and how to live a better life.
