Step-by-step colour photos and descriptive detail make this book indispensable for beginners looking to create beautiful and functional scented candles on their very first attempt and for experienced crafters who want to sharpen their skills. Precise instructions eliminate the guesswork that too often creeps into how-to books and help you avoid common mistakes.

Gleaned from the expertise of master candle makers, this guide presents all the information a novice needs to get started crafting traditional tapers and moulded candles, container and rolled beeswax candles and interesting variations on each. Includes guidelines for buying tools and materials, preparing the work space and working safely and effectively, as well as suggested shopping lists and information on scents and dyes.
