## Description

Stained glass made easy!

It doesn't take solder or a dedicated studio to start making gorgeous glass works. You can create items such as small votive holders and vases on up to windows, tables, and more, with just a few easy-to-find tools and materials. From tiny opaque tiles to larger pieces of transparent glass, there is so much beauty to be found in all sorts of glass pieces. Even broken glass items can be repurposed once you know how. You'll soon be finding ways to incorporate glass into tray designs, jewelry, garden mosaics, and other decorative and useful items.

Robin M. N. Jones teaches glass work as part of her art therapy practice with teenagers and adults, and breaks the processes down step by step to teach you how to choose your glass, snip it into useful shapes, place your pieces into a pleasing design, and finish it with common glues and grouts. She shares what she's learned in her own art to save you from making similar mistakes. And she has found the benefits for herself and others in the meditative focus of creating with glass pieces. Sorting, cutting, and placing glass is both a mental and tactile experience that calms and focuses the mind. Try out the many types of projects in this book to learn the basics, and then you'll be ready to use glass in as many interesting designs as you can imagine!

## About the Author

Robin M.N. Jones, ATR-BC, LCPAT, has a Bachelor of Fine Arts degree from Carnegie-Mellon University and a Master of Creative Arts in Therapy from Drexel University. She is a licensed professional art therapist. Robin has worked as an art therapist, art instructor, and artist for almost 40 years.
