Description

In *The Wild Dyer*, Abigail Booth will take you on a journey - teaching you the foundations of natural dyeing and guiding you through simple stitch techniques that will allow you to create 15 exquisite projects. Focusing on how to find, grow or gather your own dyeing materials, from onion and avocado skins to chamomile and comfrey, nettles and acorns - as well as scouring, mordanting (using fixative) and setting up a dye vat, she explains how to create effective dyes. And then you can use your dye fabrics to produce textiles that are not only beautiful and contemporary but will last the test of time. Projects include a drawstring forager's bag, an apron, samplers, cushions and a reversible patchwork blanket.

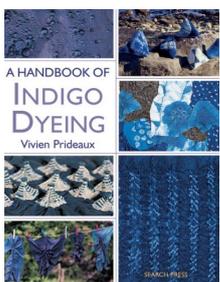

Key Selling Points

- Natural dyes are part of today's shift towards more sustainable, organic living, one that is increasingly being adopted by younger crafters
- Crafters can create long-lasting, beautiful items for their homes that are both decorative and practical
- Forest + Found won an Elle Decoration British Design Award in 2016.
