Description

This book takes a fresh look at the age-old art of crochet, introducing you to new ways of creating your own unique animals and patterns. Gone are the days of creating placemats, doilies, and tea cosies. Aimed at the intermediate crocheter, this book is ideal for those looking to increase their creative output through the use of interesting colour and design.

Discover ten easy-to-follow bespoke patterns, starting with a cute racoon and progressing to the more advanced sloth. Each animal created teaches a new technique, from establishing a simple ball through to more elaborate designs. Annotated throughout with pictures, and packed with top tips, there are links to videos of each stage. Easy to adapt, these designs will give hints about new aesthetics for seasonal versions as well as more interesting use of colours to create new and exciting pieces.
