Description

The knitting world has evolved in the last decade with new tools and needles developed; new techniques, such as knitting in the round with two circular needles, gaining popularity; and the internet rising as a central figure in the knitting community. This revised and updated edition of the best-selling *The Knitting Answer Book* covers all of these improvements and addresses the new questions knitters have asked author Margaret Radcliffe as she travels teaching classes and workshops. These includes questions like 'Is there some way to make my cast on match my bind off?' or 'What is Magic Loop and when would I use it?' It's still the best reference for knitters of all levels and the one book they'll want to have with them whenever they have a knitting question.

Key Selling Points

- New content reflects technique development and changes in knitting over the past ten years but still keeps all level of knitters in mind
- Author Margaret Radcliffe suggests several ways to accomplish what knitters want to do, then explains how to choose amongst the suggestions

About The Author

Margaret Radcliffe is the author of several books on knitting including *The Knowledgeable Knitter*. She teaches everything from beginner's basics to design, with a particular focus on promoting creativity and independence in knitters. Visit her website at www.maggiesrags.com
