### Description

Different from other spinning books, *Yarnitecture* is specially written for knitters who want to spin their own custom designed yarn to fit their project, beginning with a beautifully prepared fleece batt. Readers will learn how to match yarns with knitting patterns and how to re-create a commercial yarn, as well as how to combine commercial and handspun yarns in a single project. Full colour photographs illustrate the planning process, fiber preparations, specific spinning and plying techniques, and stress free ways of succeeding with colours and colour blending. Features 12 knitting patterns by prominent knitwear designers, including sweaters, socks, shawls, and accessories; projects are "aspirational but not out of reach".

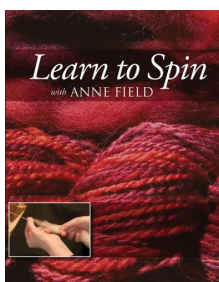

### Key Selling Points

- Discover the pleasures of designing and building custom-made yarn by spinning it yourself, choosing everything from color to feel and gauge.
- Jillian Moreno leads you through every step of yarn construction, with detailed instructions and step-by-step photos.
- Includes 12 original patterns from prominent designers, each one showcasing hand-spun yarns.

### About The Author

Jillian Moreno was formerly marketing director with Interweave Press, and helped launch magazines like *Interweave Knits*, *Beadwork*, and *Natural Home Magazine*. She's the catalyst for Knitty.com and a frequent contributor. She lives in Ann Arbor, Michigan, with her husband, two adorable children, a basement full of yarn, and more books than the local library.
