Main Description

Selecting perfect color combinations has never been easier! By popular demand, Joen Wolfrom has designed a durable, color-accurate, double-sided, multi-purpose color wheel that is perfectly sized for use in your studio, workroom, office, or sewing room. It's easily transportable! One side of the wheel features 24 pure colors with 4 essential color-plan wheels for each color. The opposite side shows a range of each pure color's tints, shades, and tones. Pure-color wedges are slotted so you can audition colors (fabrics, paint swatches, etc.) alongside them to ensure a perfect match.

Key Selling Points

- Beautiful color reference based on the Ives scientific color theory—the definitive color source
- Includes instructions for choosing colors that work together, taking the mystery out of working with tints, tones and shades

Author

After leaving her career in the educational field to become a homemaker in 1974, Joen became interested in quilting and textile art. During a span of fifteen years, she created commissioned textile art for private clients and corporations. Her work is included in collections throughout the world.

Joen is the author of twelve previously published books and products. Several have been bestsellers in the art/craft field; some have been translated into other languages. www.joenwolfrom.com
