Description

Learn to make stunning crafts with these beautiful sea gems!

Sea glass is the result of broken glass being naturally polished and smoothed by the ocean's currents for extended periods of time. These glass fragments become weathered and frosted from abrasion and erosion in salt water, giving them a distinctly beautiful, jewel-like appearance that is perfect for all sorts of crafting!

Sea Glass Crafts includes more than 20 step-by-step projects for you to create stunning works with your collection of sea glass. Accompanying each project are gorgeous full-colour photographs that visually aid readers in the instructions as well as display of the finished product. From jewellery to other lavish lifestyle crafts, this book will give readers the skills needed to learn the art of creating amazing homemade pieces.

Sea glass can be purchased in bulk online, but it is way more fun to collect on your own. On your next trip to the beach, when you find yourself swimming in these treasures, be sure to utilize the lessons in this book to create something truly homemade, unique, and beautiful.

About the Author

Rebecca Ruger-Wightman is the founder and editor of *Beachcombing Magazine*, the first print periodical devoted to sea and beach glass. She is the owner of Beach Bum Glass, which publishes *Glassing*. Under the Beach Bum Glass name, she creates one of a kind beach glass-framed artwork, shown and sold at select festivals across the USA.
