<b>SALES REGIONS</b>	Worldwide excluding North America, Australia and New Zealand

### Description

This new Waterfall Crochet charts technique still uses chain spaces to form a lattice to work over and colour changes are still only done at the ends of each row. If you are new to chart reading don't worry as the 'How to Use Waterfall Crochet Charts' section shows you everything you need to know – like what colour the row is worked in, why the marked stitch is important, and further explains some of the chart symbols and where they will be found on the chart. If you need further help, included is a video that shows you step-by-step details on working with charts.

### About the Author

Joanne C. Gonzalez is an avid craft enthusiast and designer. She learned to crochet at a young age from a family friend. She has worked in the needlecraft industry over 25 years writing, designing, and editing. Her goal is to share a love of crochet with all who wish to pursue it.
