## Author

Hazel Blomkamp has dabbled with all the needlecrafts since childhood. When her children were babies she developed a passion for embroidery to break the tedium of life with toddlers, using it as her evening reward for having got through the day with her sanity intact. Her children are now young adults and she still embroiders in front of the television every night. She has been designing for the past 18 years. Preferring to design projects which appear to be traditional, she pushes the boundaries by introducing other forms of needlecraft into traditional techniques, exploring further in everything that she does.
