Description

Part of bargello's appeal lies in the simplicity of using a single stitch in a repeating pattern that is only ever worked vertically or horizontally. The technique lends itself to dramatic, wavelike designs in exciting, gradated colourways (think Missoni) that can be used for pillows, bags, belts and purses.

This new pattern collection brings bargello stitch designs bang up to date offering fresh contemporary colour stories: brights and clashes, muted fades, contrasts, complementary colours, zesty neons and metallic rainbows.

Includes 40 design samples graded from easy to advanced, easy-to-read charts, patterns for edges and borders for smart finishes, ideas for bringing texture using fancy flosses, and a freestyling collection that mixes several techniques on one canvas.
