Description

This comprehensive knitting manual has everything you need to start knitting. It includes a wide range of techniques, including lace, cables, textured patterns, colourwork, beaded knitting and embellishment, all accompanied by fully-illustrated step-by-step instructions that are perfect for the absolute beginner. For more experienced knitters there are advanced techniques and useful pointers to give their knitted items that professional touch. At the back of the book there's a link to 25 how-to videos to help you if you get stuck on a particular technique.

The book starts with a run-through of the basic tools and equipment you'll need, as well as a guide to choosing the right yarn and needles. This is followed by a trouble-shooting SOS section that shows you how to spot and avoid mistakes, and tips on how to rescue and fix common errors. The book concludes with handy information on how to connect with fellow knitters to share and sell your work, and how to find charity projects.
