## Description

Follow Michael Caputo's tutorials for every skill level to make gorgeous quilts and patchwork with 25 modern designs in an array of colourful fabrics.

Quilting is an ancient craft which has many devoted makers eager for modern and innovative ideas, a call which has been answered here. If you're a beginner, get started with a simple project such as a seat cushion or some bright coasters and placemats, then practice your skills further with a wonderful colour wheel mini quilt, to bring an exciting burst of colour into any home. There are full-size quilts which are perfect for more confident quilters, as you can really let your creativity take charge in choosing the fabrics and colours. And don't forget the reverse—one of Michael's trademarks is that the wrong side of the quilt is just as splendid as the right side. All the templates you'll need are included and there is a techniques section, as well as clear step-by-step artworks, to guide you. All you need to do is choose some fun fabrics and you're ready to begin working on these inventive makes.

## About The Author

Michael Caputo was born in New York, USA, lived in east London for several years, and recently relocated to North Carolina. He studied Advertising and Graphic Design at the Fashion Institute of Technology in New York, and became a designer of children's novelty books, first for Harper Collins and then at Penguin, where he was given the opportunity to design his own prize-winning pop-up books. He was introduced to quilting by his mother, a keen quilter, and has taught quilting at the Institute in Finchley, and at Ray-Stitch in Essex Road, London. He designs and makes quilts for magazines, fabric manufacturers, friends, and family.
