Description

This book is both a showcase of Mary Ann Scott's work and a record of her achievements, including first-hand accounts of the joys and challenges she faced as she progressed. It contains work from every assignment she undertook, from her first attempts at drawing a tulip to the triumphant paintings she made for her diploma portfolio. Along the way are delicate floral compositions, juicy fruit and vegetables, botanical dissections, and her adventures out in the field. Margaret Stevens' comments on each assignments are also included, giving an insight into the assessment process and an all-round view of Mary Ann's successes and (very rare) failures. The book ends with a glorious selection of Mary Ann's ongoing work as a botanical artist.
