## Description

Often compared to the artist Georgia O'Keeffe, Rosie Sanders' botanical paintings lie at the extreme end of botanical art – they exude dynamism and sensuality in every brushstroke and their richness of colour sets her apart from her contemporaries. In this beautifully illustrated book, Rosie exhibits a selection of flowers, from tulips to orchids, roses to irises, anemones to amaryllis, and illuminates them with fascinating and skillful uses of perspective and light. This large-format book showcases her finest paintings in exquisite detail and they are accompanied by excellent and accessible scientific commentary. Also included is an introduction by renowned Swiss botanist Dr. Andreas Honegger. This book is perfect for artists who want to get a closer look at a master's brushstrokes, textures and colour in paintings, or readers who are interested in contemporary botanical art.
