## Description

The flexibility of whitework with colour has opened the door to a whole new world of possibilities. There are no limits to the subjects one can stitch, and readers will find nestled among the pages a wide variety of projects which will entice them to stitch. There are seventeen projects in the book, ranging from complete beginner to more advanced. No special skills are required but a little practice will go a long way in helping stitchers to master the technique. Trish believes colour is the key to any successful piece of embroidery so has used quite unusual colour combinations and stitched some of the projects in more than one colourway to show how different the same design can look when stitched in other shades.
