### Key Selling Points

- A no-nonsense approach to sewing loved ones with cancer practical gifts such as a seatbelt cover, port shirt, robe and weighted blanket
- Includes 25 projects selected by cancer-fighting patients
- All profits from this book will be donated in aid of cancer research.

### Description

A unique sewing guide for friends and families of loved ones fighting cancer with over 20 ideas for genuinely useful gifts, selected by cancer-fighting patients.

For those diagnosed with cancer, you know that you do not “beat” cancer. You wait for it to come back. Conceived by friends Susanne Woods and Heather Grant, who both fought cancer, *The Sewing Guide to Cancer* was made specifically for their friends and loved ones that would tread on eggshells, wanting to help but not knowing what to do. Now there won’t be any questions. Inside, you’ll find 25 genuinely useful sewing projects – designed by two women who have been there – for friends and family to create and give to those fighting cancer. The projects have been designed by 23 industry leaders.

With their guidance, you’ll be able to design a number of useful gifts such as a weighted blanket, hug pillow, infusion bag, robe, seatbelt cover, port shirt, and more. Written with a great deal of black humour, the book offers ideas and guidance to the support team. No longer will those fighting cancer have to endure a multitude of pasta bakes from concerned loved ones.

Susanne Woods lost her fight in 2020. To honour her and the many others, all profits from the book will go towards cancer research.
