Description

Quilter Sarah Hibbert finds inspiration in the everyday objects around her. Her unique approach includes using readily available, recyclable materials for paper collage, then she uses this design as the springboard for her quilts.

From Collage to Quilt is the first craft book of its kind, detailing how to create a paper collage and turn it into a quilt. Sarah incorporates found objects, such as card stock, pages from magazines, and even canned food labels, into her collages which then go on to form the design inspiration for her incredible quilts. The result is stunning, and, with 15 projects to try, you can create your own masterpiece!

Sarah's work is incredibly artistic, and soon, you'll be able to execute one-of-a-kind designs at home.

About the Author

Sarah Hibbert is a modern quilter influenced as much by art and architecture as quilting heritage. Often starting with traditional quilt blocks and giving them an improvisational twist, her use of textural fabric, hand stitching, and natural, rich tones, as well as a clever but limited use of prints, has led to her work being shown internationally at QuiltCon in the US and The Festival of Quilts in the UK, and acquired for both public and private collections.

She lives in London, UK. For more information visit www.sarahhibbertquilts.com
