Description

Lovable Felted Animals is, dare we say it, the cutest felting book ever! This book shows you how to make graceful models of a lifelike sleeping lion, a mum and baby koala, a regal deer, a polar bear with cub, a fluffy alpaca, the world's most adorable hedgehog and so much more! Illustrated step-by-step instructions take you through each project, and a lesson on basics helps you get started.

Different projects show how to add details such as clawed feet, antlers, markings and tail feathers. With the variety presented in this book, you can start with something easy and move on to animal figures that let you capture delicate expressions and add a little attitude, making this book an excellent choice for both learning and developing needle felting skills.
